INTRODUCTION

Dear Ladies and Gentlemen,

The European Federation for Retirement Provision (EFRP), the leading voice on workplace pensions in Europe, is pleased to invite you to the 2012 European Pension Funds Congress which will take place on Tuesday 20 November 2012 in Frankfurt am Main as part of the 15th EURO FINANCE WEEK.

The first topic in the conference is **Pension Ambitions in an Uncertain World**. Recent years have seen a strong shift from defined benefit towards defined contribution and hybrid schemes. Mr. Mario Nava and Mr. Ralf Jacob will present the respective views of DG Internal Market and Services and DG Employment, Social Affairs and Inclusion at the European Commission on this evolution and debate this development in the context of the review of the IORP Directive. Professor Yves Stevens from the Catholic University in Leuven will share his deep expertise with us on this topic. This session ends with a discussion with top level representatives of pension funds.

The **Changing Pension Investment Landscape** is a result of changes in retirement provision as well as different market developments. This is the topic of the second part of the congress. The focus is on defined contribution schemes where the member decides on the investments, and very often relies on the default option given. The design of default investment options and good communication are extremely important.

Finally, we will have a closer look at **Good Pension Innovations from Around the World**. This session aims to discover good ideas from Europe as well as from around the world. Many pension issues are truly and increasingly global. Mr. Yves Leterme, Deputy Secretary General at the Organisation for Economic Co-operation and Development (OECD) will share his views with us. We will also learn interesting experiences from Australia, Croatia and the Czech Republic.

We look forward to seeing you in Frankfurt.

Patrick Burke
Chairman EFRP

Matti Leppälä
Secretary General EFRP

PROGRAMME

8:15 a.m. REGISTRATION
